

Communication

Project: Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Clear communication is maintained between the team, mentors and stakeholders during the demonstration.

Channel	Used For	Frequency
Team meetings	Progress updates, task sharing, issue discussion	Regular / weekly
Messaging group	Quick doubts and daily coordination	Daily
Email	Formal updates and document sharing	As needed
Review sessions with mentor	Feedback on flow design and documentation	At each phase end

Stakeholder Updates

Requesters receive automatic email updates from the flow at every stage. The team shares demo results and feedback with the mentor after each demonstration.
