

Demonstration of Proposed Features

Project: Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

The following features are demonstrated live in ServiceNow:

No.	Feature	What is shown in the demo
1	Standard Laptop Catalog Item	Open the item from the Service Catalog and submit a request
2	Automated Flow Trigger	Flow starts automatically; show it in Flow Execution
3	Manager Approval	Approval request appears for the manager; approve and reject cases
4	Procurement Task Creation	Task auto-created and assigned to IT Procurement
5	Email Notifications	Status emails received by requester
6	Request Status Tracking	Request state changes through to Closed Complete
