

Project Demo Planning

Project: Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

1. Demo Plan

Step	Activity	Time
1	Introduction: problem statement and objective	2 min
2	Solution architecture and flow overview	3 min
3	Live demo: submit a request as requester	3 min
4	Live demo: approval and procurement task	3 min
5	Notifications and status tracking	2 min
6	Testing results, scalability and Q&A;	5 min

2. Preparation Checklist

ServiceNow instance running and flow activated; test users for requester and manager ready; sample request data prepared; email notifications working; backup screenshots kept in case of network issues.
