

Team Involvement in Demonstration

Project: Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Every team member has a defined role in the demonstration.

Team Member	Role	Responsibility in Demo
Member 1	Team Lead / Presenter	Introduction, problem statement, overall walkthrough
Member 2	Flow Developer	Explains and shows the Flow Designer logic
Member 3	Tester	Runs the test scenarios and presents results
Member 4	Documentation	Shares architecture, documentation and future plan

Team member names and roles can be updated as per the actual team.
